

TAREE OLD BAR SURF LIFE SAVING CLUB INC. ESTABLISHED. 1928

GYM CONDITIONS OF USE & GUIDELINES

Introduction

Taree Old Bar SLSC is committed to helping members gain and maintain fitness so they can safely and effectively carry out their volunteer responsibilities. The gym facility and associated equipment has been purchased for use by members.

The objective of this document is to ensure the Taree Old Bar Surf Club has a successful safety and operational process relating to the running of the gym. It defines and provides advice and suggestions on how to avoid gym injuries. It also provides rules and processes to apply in when accessing the Taree Old Bar Surf Club Gym, including who may use these facilities.

Instructions and Guidelines

The skill of using weights must be learned carefully as poor technique, reckless advancement and irresponsible behaviour can cause injury or accidents. Safety requirements will vary for specific weight training techniques.

Despite established training routines and safety procedures, members could suffer injuries during these Gym activities. The following information is provided to assist The Taree Old Bar Surf Club Gym and its members to minimize injuries due to sports injuries.

Gym injuries can include:

- Muscle strains to the back or limbs.
- Sprains or injuries to ligaments.
- Fractures.
- Internal or external bleeding such as bruising or minor cuts.
- Head injuries such as concussion, eye damage or loss of consciousness
- Heat and cold related injuries
- Spinal injuries
- Death

Common Gym injuries occur suddenly. They can result from over-exertion, inattention, poor technique, or through the incorrect use of equipment. Some Gym injuries can develop more slowly, particularly overuse injuries.

It is important that members are alert to body signals that can identify early warning signs of impending injury.

The best approach to preventing Gym injuries is to identify the risks and avoid injury in the first place by using safe practices and safe Gym equipment. Using the safe practices and equipment appropriate to the activity reduces injury risk.

Stretching / warm up / cool down

Warming up before exercise is one of the best ways to reduce the risk of injury. Inactive joints, tendons and muscles are more likely to get strained or sprained by sudden movement or exertion. In normal conditions, a five to ten minute warm up is all that is generally needed,

increasing this slightly in colder weather. Focus on 'warming' (activating) the muscle groups used in the activity. 'Coolingdown' after exercise is also important injury prevention strategy. Cool down should include light movement to stop the blood pooling in the body. Consider static and dynamic stretches during both the warm-up and cool down period.

Hydration

Maintaining body fluid levels is essential and best done throughout a Gym activity, as thirst may not indicate dehydration. Take fluids before, during and after the activity depending on its nature and extent. Water is often the most effective fluid although some Sports Drinks, or specific dissolving additives, can help replace essential electrolytes lost through a rapid depletion of body fluids.

Training

Taking appropriate training before undertaking the activity is essential to minimising injury risks. This may include:

- Knowing the "rules of the gym", the activity's potential risks and how to avoid them.
- Proper lifting techniques to minimise injury.
- Familiarization with the venue or facilities.
- Tailored activities to build strength and fitness to undertake the activity safely using protective or other safety equipment.
- An understanding of the best warm-up and cool-down procedures for the activity.

Injury Management

It is important that all injuries are properly treated to aid quick recovery and prevent further injury or long-term damage.

All attending gym members must show a duty of care to fellow members and assist in an injury situation.

The injured individual should be advised to attend a trained First Aid person if available or a medical practitioner/health care professional, depending on the nature of the injury.

You need to notify the Director of Member Services immediately if you are injured.

Appropriately trained medical practitioners need to treat severe injuries as soon as possible. Severe injuries include but are not limited to fractures, dislocations, head injuries and severe bleeding. Meanwhile, apply first aid to stabilise the injury. Use first aid to treat less severe injuries.

The RICE method is a simple and effective way to treat less serious sprains and strains:

- Rest – Avoid any movement or activity that causes pain
- Ice – Once bleeding is controlled, apply a wrapped ice pack or cold compress to help reduce swelling and ease pain and discomfort. Apply this for at least 20 minutes as soon as possible after the injury, then every 4 hours while you are awake, for the next 48 hours
- Compression – use a firm crepe or elastic pressure bandage on the affected joint or limb with a light padding under the bandage if the pain is severe
- Elevation – keep the injured arm or leg raised, ideally above the heart, to slow the flow of blood and reduce swelling.

The Taree Old Bar Surf Club Gym Conditions of Use

1. Only members of TOBSLSC may use the gym and associated equipment.
2. To use the gym, members must meet the following conditions;
 - a. Be over the age of 16 years

 - d. Be inducted into the use of the gym by a suitably qualified person as nominated by the Management Committee
 - e. Get written clearance from a medical practitioner if requested by the Club Captain
3. Access to the gym will be restricted by access fob. Such fob's will only be issued to members who meet the conditions in 2.
4. Gym fobs must not be lent to any other person be it member or non-member
5. No member may use the gym while under the influence of alcohol or recreational drugs
6. No food is to be consumed in the gym area but consumption of water is encouraged
7. Members must not use any weight that they cannot lift at least eight times in each repetition of each set
8. Members should be considerate of others and use their own towel to wipe down benches after use
9. All equipment must be returned to its storage place after use
10. Any damaged equipment should be reported by note on the board provided
11. Any injuries sustained in the gym or as a result of using the gym and associated equipment must be reported to the Director of Member Services as soon as possible and recorded in the incident register located in the gym.

We encourage members to vigilant about personal safety at all times when entering and leaving the facility.

Access to the facility will be equitable to financial gym members. Please note that rostering may be an option implemented by the Taree Old Bar Surf Club Management Committee.

Important Information

The Taree Old Bar Surf Club Management Committee may seek additional safety information in certain circumstances.

All gym users must follow the conditions set out on the membership application and the Gymnasium Rules and Administrative procedures applying to the gym.

If a gym user knows or reasonably suspects that he or she may be at risk by participating in a particular fitness activity, the user must inform the Director of Member Services who will record this with Taree Old Bar Surf Club Management Committee.

When and if applicable all coaches will be acknowledged by the Taree Old Bar Club Management Committee and identified on the Gym notice board as these positions may change over time.

General Gym Advice

All gym users must take every care while they are engaged in gym use and note the following points:

- Gym users must not knowingly place their own safety or that of others in jeopardy
- Gym users must report any situations or practices that place their own, or the health of others, at risk
- All related gym use should cease until the concern is fully investigated or the problem rectified.

Gym Injuries

All gym injuries should be reported to the Director of Member Services as soon as reasonably possible.

Any injury of a significant nature must be reported into the "Incident Log Book". This is an insurance requirement and the Register will be available in the Gym.

GYM CODE OF CONDUCT

1. Take all actions reasonably possible to provide a safe training environment.
2. No smoking, food or drink (other than drink bottles) is permitted in the gym.
3. No equipment to be removed from the gym for any reason.
4. Always use a separate towel for hygiene purposes and wipe equipment after use.
5. If you are on your own, or the last person in the gym, switch off all electrical equipment on leaving and leave safely.
6. Lifters must use collars on every set and must not drop weights on the floor.
7. Lifters must use spotters on all moderate to heavy sets.
8. Replace all weights and do not leave weights on the floor or machinery, this is a safety risk.
9. Return all equipment to its allocated position.
10. When the gym is busy you are encouraged to share equipment.
11. Please wear body deodorant at all times.
12. Gym users must adhere to dress code at all times.
13. Sweep the floor and close all doors as you leave.

GYM DRESS CODE

1. You must be dry and clean of sand before entering the gym.
2. Covered Athletic shoes must be worn with laces tied at all times.
3. Lower body clothing: athletic shorts, tights or aerobic outfits.
4. Upper body clothing: T-shirts, singlets, sweat shirts.
5. Athletic hats are acceptable.
6. Prescription glasses are permissible. NO sun-glasses permitted.
7. Any jewellery that may possibly injure a user, including rings and necklaces are not permitted.
8. Small earrings and items that cannot inhibit or injure a user are permitted.

GYM EXERCISE HINTS

1. Don't compete. Just improve your own performance. Work to your own limits.
2. Please ask for assistance or advice on correct technique and posture.
3. When starting any lifts, start with an easy load for a few repetitions before increasing the load.
4. Warm up muscles and stretch before taxing them and warm them down at the conclusion of the program.
5. Use safe progressive movements
6. Ensure all collars and weights are secure and stable.
7. Choose a weight that is too light rather than one that is too heavy.
8. Do not use any equipment if unsure about technique or weight usage.
9. Breathe correctly. Exhale when exerting pressure (e.g. when lifting or near completion of lift) and inhale when relaxing (e.g. on lowering weight).
10. When using free weights for the first time, concentrate on correct technique and low weights for the first six sessions, then gradually increase the weight.
11. When lifting or lowering weights to the floor level, try to:
 - a. Keep back straight and lift using legs bent at the knee;
 - b. Lift and lower dumbbells along the side of the body; and
 - c. Ensure weights are as close to your body as possible before lifting
12. All movements should be smooth and controlled, both up and down.
13. Rest between sets to allow the muscles to recover. How much time is needed will depend on your condition and the purpose of the activity
14. Stay Hydrated at all times.
16. Let some one else know if you are training. This is important if you are training alone and outside of normal busy hours.
